03/11/15- **Taped (interview of co-comp** [redacted]**) OCC**

[redacted] said there has been a narrative of the OIS of Amilcar Perez that was circulated with the media, which conflicts with SFPD version of facts. SFPD claims Perez Lopez had a knife when plainclothes officers Craif Tiffle and Eric Reboli approached him and asked him to back down and when he would not, officers drew their guns, shot, and killed him. [redacted] said many SFPD details are in dispute. These were two people who knew each others. People in the neighborhood have said that the supposed victim was the perpetrator who had stolen a cell phone from Amilcar Perez. It is also questioned whether Amilcar Perez spoke English to understand the officers. Yet, he did not know what was Amilcar's dialect from a tribe in Guatemala wherein Spanish is not even his first language.

Newspaper reports have suggested that Amilcar was not spoken in Spanish, which would be a violation of the Department General Orders. Second, these were plainclothes officers and it is questioned whether their badges were displayed at all. As he understand it, plainclothes officers have certain limitations to the roles they play because it is much more difficult to identify them as police officers. Neighbors in opposition to the SFPD version have suggested that Amilcar had in fact had dropped the knife before the guns were fired. Neighbors also suggested that there was a confrontation between SFPD officers and Amilcar in that the officers came behind him prior to Amilcar presenting the knife and potentially physically grabbed him, which would have startled him, and then the knife was produced.
Did officers clearly displayed their stars?
